

NHP/NHIC-Credentialing-Recredentialing Policies and Procedure Review

Abstract/Purpose:

Policies and procedures for the initial credentialing and recredentialing of health care professionals for Network Health Plan/Network Health Insurance Corporation will be initiated by the Credentials Committee and developed and implemented by the Credentialing Department. Policies shall be designed consistent with NHP/NHIC Policies and Procedures: Development, Distribution, & Manuals.

I. POLICY:

Policies and procedures for the initial credentialing and recredentialing of health care professionals for Network Health Plan/Network Health Insurance Corporation will be initiated by the Credentials Committee and developed and implemented by the Credentialing Department. Policies shall be designed consistent with NHP/NHIC Policies and Procedures: Development, Distribution, & Manuals.

Credentialing and recredentialing policies and procedures will be periodically revised and updated as needed and at least reviewed for recommendation by the Credentials Committee and approved by the Quality Management Committee on a biennial basis.

The master file of credentialing/recredentialing policies and procedures will be located in the Credentialing Department.
